5. **Waiver and Release.** Grantee acknowledges that the Mountain Activities, the Construction Activities and the Commercial Activities, and the impacts and disturbances generated by the Mountain Activities, the Construction Activities and the Commercial Activities, may occur in and around the Unit, may occur in and around the Unit, may occur in the daytime or nighttime, and may be temporarily or permanently interrupted, discontinued or modified, in whole or in part, from time to time. Grantee acknowledges that the Mountain Recreational Areas and the Commercial Activities Areas may be reconfigured from time to time and that users of such areas may trespass onto the Project. Grantee forever waives and releases any claims Grantee, its successors and assigns may have against Grantor, its affiliates, the owner(s) and/or operator(s) of the Mountain Recreational Areas, the owner(s) and/or operator(s) of the Commercial Activity Areas, and their successors and assigns, which in any way arise out of the impacts and disturbances generated from the Mountain Activities, the Construction Activities or the Commercial Activities, or the reconfiguration of the Mountain Recreational Areas or the Commercial Activities Areas.

6. **Use Rights.** Grantee acknowledges that no right is created or arises from ownership of the Unit (a) to use the Mountain Recreational Areas (including, without limitation, the Vail Mountain ski area) or the Commercial Activity Areas; or (b) to any waiver or discount of the prices charged for lift tickets or other fees charged to users of the Mountain Recreational Areas or the Commercial Activity Areas. Any right that Grantee acquires to use the Mountain Recreational Areas or Commercial Activity Areas may be created or arise, if at all, only through a separate agreement with or license granted by the owners or operators of the Mountain Recreational Areas or Commercial Activity Areas and is not derived in any way through ownership of the Unit.

7. **No View Easement.** Notwithstanding any oral, written or other representation made to Grantee to the contrary by Grantor, any real estate agency or agent, or any agent, employee, or representative of Grantor, or any other person, Grantee hereby acknowledges and agrees that there is no easement or other right, express or implied, for the benefit of Grantee or the Unit for light, view, or air included in or created by this Special Warranty Deed or as a result of Grantee's owning the Unit. Grantee, by taking title to the Unit, hereby acknowledges and agrees that any view, sight lines, or openings for light or air available from the Unit may be blocked in whole or in part in the future by virtue of natural or unnatural causes, including but not limited to future construction or expansion of commercial or residential buildings or facilities, future construction or expansion of ski lifts, gondolas, and associated poles and towers, or by natural or unnatural loss or alteration of vegetation or mountain slopes. **GRANTOR HEREBY DISCLAIMS ANY AND ALL REPRESENTATIONS, WARRANTIES, OBLIGATIONS OR LIABILITIES CONCERNING EASEMENTS OR OTHER RIGHTS, WHETHER EXPRESS OR IMPLIED, FOR LIGHT, AIR, OR VIEW IN THE UNIT AND/OR THE PROJECT; GRANTEE HEREBY ACCEPTS SUCH DISCLAIMER, AND AGREES THAT GRANTOR AND ITS AFFILIATES WILL NOT HAVE ANY OBLIGATION OR LIABILITY FOR, AND WAIVES ANY CLAIM AGAINST GRANTOR OR ITS AFFILIATES, AND THEIR CONTRACTORS OR AGENTS, RELATED TO ANY LOSS OF LIGHT, AIR, OR VIEW THAT MAY AFFECT THE UNIT OR THE PROJECT.**

8. **Post Tension Construction.** Grantee acknowledges that the Project was constructed using "Post Tension Construction." Post Tension Construction is a method of construction using concrete reinforced with a grid of steel cables. While Post Tension Construction

is an effective means of constructing a stable and solid structure, any remodeling work must be carefully evaluated beforehand due to the nature of Post Tension Construction. Any remodeling, reconstruction or other work that involves the movement of any walls or penetration of any floor slabs, ceilings, columns, beams or walls within the Project must be assessed beforehand to determine whether or not the grid of steel cables will be adversely affected. Such assessment must include a cable survey by a licensed structural engineer, and the review and approval of WDL Vail Condominium Association, Inc. (the "Association"), which is the property owners' association having jurisdiction over the Project, and the Town of Vail and any other governmental entity having jurisdiction over the Project and the work being done. **BY ACCEPTING TITLE TO THE UNIT, GRANTEE ACKNOWLEDGES AND AGREES THAT IT WILL NOT ALTER, MOVE, REMOVE OR REPOSITION ANY WALL IN THE PROJECT OR PENETRATE ANY FLOOR SLABS, CEILINGS, COLUMNS, BEAMS OR WALLS IN THE PROJECT WITHOUT FIRST OBTAINING A CABLE SURVEY BY A LICENSED STRUCTURAL ENGINEER AND WITHOUT THE PRIOR WRITTEN APPROVAL OF THE ASSOCIATION AND THE TOWN AND ANY OTHER GOVERNMENTAL ENTITY HAVING JURISDICTION OVER THE PROJECT. BY ACCEPTING TITLE TO THE UNIT, GRANTEE ACKNOWLEDGES THAT ANY UNAPPROVED ALTERATION, MOVEMENT, REMOVAL OR REPOSITIONING OF A WALL IN THE PROJECT OR ANY PENETRATION OF A FLOOR SLAB, CEILING, COLUMN, BEAM OR WALL IN THE PROJECT COULD RESULT IN INSTABILITY TO THE UNIT AND THE PROJECT AS A WHOLE. IN ADDITION, BY TAKING TITLE TO THE UNIT, GRANTEE ACKNOWLEDGES AND AGREES THAT CONSTRUCTION WORK AT THE PROJECT, INCLUDING WITHOUT LIMITATION, MOVEMENT OF WALLS OR PENETRATION OF FLOOR SLABS, CEILINGS, COLUMNS, BEAMS OR WALLS, MAY CAUSE SERIOUS BODILY INJURY AND/OR DEATH IF THE STRUCTURAL STABILITY AND/OR THE GRID OF STEEL CABLES IS IMPACTED OR COMPROMISED.**

9. **Other Properties.** Grantee acknowledges that other properties are located adjacent to and in the general vicinity of the Project (the "Other Properties") and that the Other Properties may be developed pursuant to the land uses permitted by the zoning ordinances of the Town of Vail, Colorado, as well as any other governmental rules, regulations, or policies in effect now or in the future which are applicable to the Other Properties, as may be amended from time to time (collectively, the "Ordinances"). Neither Grantor nor Grantor's employees, agents, officers, directors and affiliates make any representations concerning the planned uses of the Other Properties. Grantee further acknowledges that the zoning for the Project and the Other Properties is established and governed by the Ordinances. Any amendment of those Ordinances, requires approval of the Town of Vail, Colorado. Grantee acknowledges that Grantee has not relied upon any statements or representations regarding the Project, the Unit or the Other Properties, including, without limitation, any representations made by Grantor or any agents or employees of Grantor or any real estate agency or any agent, except for those statements and representations expressly set forth in the Ordinances and in the purchase and sale agreement pursuant to which Grantor agreed to sell and convey the Unit to Grantee.

10. **Mold Disclaimer and Waiver.** Molds, mildew, fungi, bacteria and microbiologic organisms (collectively, "Molds") are present in soil, air and elsewhere in the environment. Molds can proliferate in various environments, including, among others, damp areas such as bathrooms and within walls and partitions. Certain parties have expressed concerns about the possible adverse effects on human health from exposure to Molds. Due to various reasons, including the varying sensitivities of different individuals to various types of Molds and other contaminants, there currently exist no state or federal standards regarding acceptable levels of exposure to Molds. According to the Consumer Product Safety Commission and the American Lung Association, some diseases or illnesses have been linked with biological pollutants in the indoor environment, including some forms of Mold. However, it is believed that many of these conditions may also have causes unrelated to the indoor environment. Therefore, it is presently unknown how many potential health problems relate primarily or exclusively to indoor air quality or Molds. Grantee is advised that Grantor is not qualified and has not undertaken to evaluate all aspects of this very complex issue. **GRANTEE ACKNOWLEDGES THAT GRANTOR MAKES NO REPRESENTATIONS OR WARRANTIES, EXPRESS OR IMPLIED, CONCERNING, THE PAST, CURRENT OR FUTURE, PRESENCE OR ABSENCE OF MOLDS IN OR IN THE VICINITY OF THE UNIT OR ANY LIMITED COMMON ELEMENTS ALLOCATED TO THE UNIT OR IN ANY OTHER PORTION OF THE PROJECT.** Grantor recommends that Grantee, at Grantee's expense, conduct its own investigation and consult with such experts as Grantee deems appropriate regarding the occurrence and effects of Molds, the potential sensitivity or special risk Grantee, his or her family members, and other individuals who will occupy or use the Unit or any limited common elements allocated to the Unit may have with respect to Molds, and methods to reduce or limit Molds within the Unit or any limited common elements allocated to the Unit.

When excessive moisture or water accumulates indoors, Mold growth can and will occur, particularly if the moisture problem remains unaddressed. There is no practical way to eliminate all Mold in an indoor environment. The key to controlling indoor Mold growth is to control moisture. Grantee agrees to maintain the Unit and any limited common elements allocated to the Unit in such a manner as to reduce the potential for increased Mold formation or growth, including, without limitation, (a) keeping dryer and other vents and/or fans clear and functioning, and preventing and repairing plumbing, window and other leaks and sources of moisture, and (b) maintaining the setting on the Unit's humidistat at a relative humidity of 30% or less. Grantee agrees to make periodic inspections of the Unit and any limited common elements allocated to the Unit after closing for the presence of Molds or conditions which may increase

the ability of Molds to propagate within the Unit and any limited common elements allocated to the Unit, and to monitor the Unit and any limited common elements allocated to the Unit on a continual basis for excessive moisture, water or Mold accumulation. If water or moisture is discovered in or around the Unit or any limited common elements allocated to the Unit, Grantee should immediately seek to eliminate the source of the water or moisture. Failure to eliminate the source of moisture could result in additional damage and the growth of Mold.

**TO THE FULLEST EXTENT PERMITTED BY LAW, GRANTOR WILL NOT BE RESPONSIBLE FOR DAMAGES AND GRANTEE HEREBY WAIVES ALL RIGHTS TO DAMAGES AND SUBROGATION OF DAMAGES CAUSED BY THE PRESENCE OF MOLD IN THE UNIT OR THE COMMON ELEMENTS, REGARDLESS OF THE SOURCE OR CAUSE. GRANTEE AGREES TO INDEMNIFY GRANTOR AND HOLD GRANTOR HARMLESS FROM DAMAGES, INCLUDING IN ALL CASES PERSONAL INJURY OR PROPERTY DAMAGE, CAUSED BY THE PRESENCE OF MOLD IN THE UNIT OR THE COMMON ELEMENTS TO THE EXTENT THAT THE DAMAGES ARE CAUSED BY: (I) GRANTEE'S NEGLIGENCE OR FAILURE TO PROPERLY MAINTAIN AND MONITOR THE UNIT; OR (II) GRANTEE'S FAILURE TO PROMPTLY TAKE APPROPRIATE CORRECTIVE MEASURES AND MINIMIZE ANY DAMAGE CAUSED BY WATER OR MOISTURE (INCLUDING, WITHOUT LIMITATION, FAILURE TO PROMPTLY NOTIFY AND ENGAGE THE HELP OF APPROPRIATE PROFESSIONALS).**

11. **Covenants Binding.** The covenants, conditions, restrictions and acknowledgments set forth herein touch and concern the Unit, are covenants running with the land, are equitable servitudes, and will be binding upon Grantee and any person or entity claiming by, through or under Grantee, and will inure to the benefit of Grantor, its successors and assigns.

12. **Counterparts.** This Special Warranty Deed may be executed in one or more counterparts, each of which will be considered an original and all of which, when taken together, will constitute one and the same agreement.
